The Wednesday Junior Golf program at Oshkosh Country Club runs for 7 weeks and is for junior golfers of all ages. Each group will have a 60-minute clinic. We incorporate core life values, strong golf fundamentals, and a lot of fun! We are trying to build on the previous years but make this year's groups more skill level based. It will lead to better lessons and overall experience for all the different skill levels. There are several factors that help determine what group your junior golfer should play in. These include age, golfing experience, ability, and overall maturity. We will work with you to make sure your junior golfer is placed in the correct group. The professional staff reserves the right to move junior golfers into a different group after the season starts. If you have never participated in junior golf at OCC in the past, please contact Austin Elsner before submitting this application. Each class is open to the first 12 participants, 24 in total.
